SUBJECT : Integrated Public Schools Positive Behavioural Support Programme

On behalf of our District Office we would like to confirm our support, that is to be implemented through a partnership between the following organisations:

Grassroots Coaching

HR Support Solutions

The partnership will provide a research-based framework to improve academic and behavioural outcomes for all learners. The programme is complimented with positive sports coaching approach provided by Grassroots Coaching and administrative support provided by HR Support Solutions Human Resources Interns.

The Department of Education will provide the programme with one hundred schools in Ekurhuleni, Gauteng East District – Springs.

The Gauteng East District is appreciative of this partnership which will benefit public schools, their learners and teachers as well as providing opportunities for much needed work experiential learning for unemployed HR graduates and HR FET students.
